

PUERAR-GENX- II

bio-transformational nutrition

Code: FM2000X

PUERAR-GENX- II is powerful supplement based on a functional substrate containing a variety of edible Chinese herbs, which supports healthy immune function and circulatory health. Functional substrate includes Kudzuvine Root, positively impacting the spleen, liver and heart meridians.

PUERAR-GENX- II is a powerful tonic with 38 organic, health-promoting bioactive compounds that work at the cellular level to simultaneously support your immune systems. Hericium Erinaceus is currently one of the most popular supplements in China to promote strength, vigor, and good digestion. The pure mycelium extract in PUERAR-GENX- II is recognized as the global standard for excellence by research and medical laboratories around the world.

History of Use

Culinary and medicinal use of mushrooms in Chinese culture dates back over 2,500 years. Mushrooms are a superb agent of health due to their complete nutritional makeup. PUERAR-GENX- II uses a rare strain of the Hericium Erinaceus mushroom, discovered in 1983 in a primeval forest in the mountains of Central China. Now they are carefully cultivated and *meticulously* harvested with a proprietary patent-pending process in a state-of-the-art facility in the United States.

DNA sequencing in the early 1990's discovered that fungi are not actually a part of the plant kingdom. Mushrooms are now regarded as their own kingdom with each class and family boasting unique physiological properties. **Bio-Transformation Technology™** defines the remarkable characteristic for this mushroom to assimilate *organic* bioactivity and benefits from its growing medium. The Lion's Mane in PUERAR-GENX- II is cultivated and harvested in a highly controlled environment. It represents the world's best science in directional culturing and bi-directional transformation.

The "Magic" of PUERAR-GENX- II

PUERAR-GENX- II is rich in organic polysaccharides, proteins, metabolites, fiber, amino acids, vitamins, fatty acids, and digestive enzymes. This matrix supports your body's primary systems at the cellular level. Scientists discovered a unique polysaccharide in Lion's Mane they call BRM (Biological Response Modifier), which most closely translated from Eastern culture purports "magical" functions due to its synergistic capabilities. Hericium Erinaceus is the richest source of BRM. The 21st century is recognized as the "century of the mushroom polysaccharide" in Chinese medicine. The future is bright for those who are enlightened with PUERAR-GENX- II.

The Process to Achieve PUERAR-GENX- II

The **Bio-Transformation Technology™** that PUERAR-GENX- II utilizes through directional culturing and bi-directional transformation has multiple patents pending. This ability to organically infuse Hericium Erinaceus with the specific bioactivity of other medicinal plants and herbs mean PUERAR-GENX- II could target and transform specific health challenges even more effectively.

PUERAR-GENX-II Benefits

- ❑ Supports immune system
- ❑ Provides anti-alcohol support
- ❑ Supports gastrointestinal health
- ❑ Supports the liver
- ❑ Helps the body's normal detoxification process
- ❑ All natural, Non-habit forming and side effect-free

Supplement Facts

Serving Size: 4 Capsules
Servings Per Container: 30

	Amount per Serving	% Daily Value
Lion's Mane (Hericium Erinaceus)	1200 mg	†
Mycelium Extract	†	
Fungal Polysaccharides 10%, Fungal Protein 10%, Fungal Cellulose 30 U/g, Kudzuvine root (Puerarin) 10%		

† Daily value not established. Percent Daily Value is based on a 2,000 calorie diet

Other ingredients: Hypromellose, rice flour, stearic acid, magnesium stearate, and silica.
